Professional Summary

Computer Science student and customer-focused technical contributor with experience translating user needs into functional web solutions, troubleshooting implementation issues, and presenting technical work in fast-paced team environments. Hands-on background with WordPress, web applications, AI-enabled products, GitHub, and rapid prototyping. Strong communicator seeking to support product demonstrations, customer onboarding, technical documentation, and solution implementation in cybersecurity.

Core Qualifications

- **Collaboration:** requirements translation, project documentation, cross-functional teamwork
- **Web & Data :** HTML, CSS, React, MongoDB/NoSQL
- **Product & Design:** UI/UX, WordPress, Google Gemini API, rapid prototyping
- **Software Development:** Object-Oriented Programming (OOP), debugging, Git/GitHub
- **Programming Languages:** Python, Java, C, JavaScript/Node.js
- **Systems & Cloud:** Linux, DigitalOcean, cloud deployment, VS Code

Projects

EcoVest – *Lead Frontend Developer & UI/UX Designer* **Summer 2026**

- Led frontend delivery for a four-person, 12-hour hackathon team building a sustainable-investment platform that used Google Gemini to generate portfolio insights.
- Converted a product concept into a working customer-facing interface, designed branding and information architecture, and presented the solution within a strict deadline.

SeesAgenda – *Frontend Developer & UI/UX Designer* **Fall 2025**

- Led frontend development for a schedule-planning web application, translating user workflows into calendar, event management, and contact-system features.
- Designed the complete UI/UX and validated that key user-facing functions worked cohesively across the application.

Contact Manager – *Full-Stack Web Application* **Fall 2025**

- Built and deployed a MERN application using MongoDB, Express, React, and Node.js; developed API-backed contact management functionality and used Git/GitHub for version control.
- Deployed the application to a Linux-based DigitalOcean environment and troubleshoot application, networking, and configuration issues to restore reliable access.

SkillMatchAI – *UI/UX Designer* **Spring 2025**

- Designed and implemented the frontend style system for an AI-powered career consultation platform, establishing consistent components, typography, and visual hierarchy.

Experience

Digital Marketing Production Assistant Massive Impressions Online Marketing – *Boca Raton, FL* May 2024 to August 2024

- Provided on-site and remote WordPress support for client-facing marketing initiatives, resolving content and implementation issues across technical and creative workstreams.
- Translated changing project requirements into deliverable updates, communicated progress to teammates, and supported reliable execution under shifting priorities.
- Created and formatted digital content for external audiences, strengthening the presentation and usability of customer-facing materials.

Line Cook Chili's – *Oviedo, FL* November 2024 to February 2025

- Maintained accuracy, urgency, and cross-team coordination in a high-pressure production environment while adapting quickly to changing workload demands.

Theater Team Member Cinemark Palace 20 Theaters – *Boca Raton, FL* June 2021 to August 2022

- Delivered customer service, handled point-of-sale transactions, and coordinated food preparation and inventory responsibilities in a public-facing environment.

Education

Bachelor of Computer Science – University of Central Florida - *Orlando, Florida*
GPA: 3.16 | Florida Academic Scholars (FAS) Scholarship – Aug 2022 - Present

Expected 2027
